Compatibility between Henry's Natural Profile (PS: 63 100 26 11 63) and job PROACTIVE: Competitive – Proactive (Administrative Styles) (PS: 100 80 0 20 50)

Compatibility: 89 %

When the indicator is in this range, the Correlation is "Very Good," and there is a good possibility that the individual will respond successfully to the behavioral requirements of the position.

Behavioural Radar Chart

Risk Axis ▲ PROACTIVE: Competitive – ... ● Henry Martin R

Cautious Risk-Taker

This indicates that the position requires an individual who is naturally and spontaneously direct, decisive and confrontational – someone who is motivated by competing and winning. However, Henry is kinder, more peaceful and less confrontational, and although he can sometimes be direct, decisive and confrontational, he may act in a more pleasant and moderate manner.

Extroversion Axis ▲ PROACTIVE: Competitive – ... ● Henry Martin E

Introverted Extroverted

This indicates that the position requires an individual who is naturally and spontaneously friendly, extroverted, persuasive and sharp – someone who is motivated by interaction and exposure to people. Henry has these attributes as part of his Natural style.

Patience Axis ▲ PROACTIVE: Competitive – ... ● Henry Martin P

Restless/Impatient Calm/Patient

This indicates that the position requires an individual who is dynamic, restless and spontaneous – someone who is motivated by working on several matters simultaneously, attacking them on various fronts. Henry has these attributes as part of his Natural style.

Conformity to Norms Axis

▲ PROACTIVE: Competitive – ...

● Henry Martin

Independent

Adherence to rules

This indicates that the position requires an individual who is independent, self-confident and discerning – someone who is motivated by independence from structure and freedom of action. Henry has these attributes as part of his Natural style.
